

Lopatcong Township School District
Phillipsburg, New Jersey
Phone 908-213-2995
Fax: 908-213-0373

TO: All newly hired staff members
All Student Teachers
All Substitutes (serving in any capacity within the school district setting)

If you have not had a MANTOUX test for TB, you will need to have one done prior to employment in the Lopatcong School District.

RE: New Jersey State Regulation for Tuberculin Testing

1. An employee or substitute documented as having had previously positive (significant) Mantoux Tuberculin test reaction, whose chest x-ray was negative for evidence of Tuberculosis or who has received preventive or case treatment requires no further Tuberculin testing.
 - a. An official document of the results of the positive Mantoux test, the required x-ray and any needed follow up must be submitted before employment.

2. Any new employee or substitute with an official document of a Mantoux test administered within the previous 6 months does not have to be re-tested. Please bring your official document in with your completed substitute information to the middle school so that the middle school nurse, Mrs.Fania can review it. Mantoux must be approved before you can be employed by the school district.
 - a. If the employee is transferring between school districts or from a non-public school within the State of New Jersey, he/she would not have to be re-tested if an official document is presented a Mantoux tuberculin test from the initial employer).

3. In New Jersey, exclusive use of the Mantoux intra-dermal test with 5 TU of stabilized PPD tuberculin is required..
